## **DETAILED ACTION**

This Office Action is in response to the RCE filed 9 June 2005.

### ***Information Disclosure Statement***

The information disclosure statement filed 11 May 2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

### ***Allowable Subject Matter***

Claims 1-13 and 26-43 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-13 and 26-43 are allowable because prior art does not disclose alone or in combination along with the limitations of the independent claims such as a first concentration change region in which the proportion of the electron transporting material increases gradually until a ratio between the hole transporting material and the electron transporting material becomes  $x : y$  (where  $x$  and  $y$  are positive constants), a mixture region containing the hole transporting material and the electron transporting material at the ratio of  $x : y$  and a second concentration change region in which the proportion of the electron transporting material gradually increases further from the  $x : y$  ratio.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
